

The Swagelok logo is rendered in a white, stylized script font with a registered trademark symbol (®) at the end. It is centered on a black background. Surrounding the logo are four high-contrast, close-up images of Swagelok hydraulic fittings. In the top left, a female fitting is shown. In the top right, a male fitting is shown. In the bottom left, a T-junction fitting is shown. In the bottom right, a male fitting is shown with a hose or tube inserted into it. The fittings are dark and metallic, with some showing internal threads or O-ring grooves.

SPECIALIST TRAINING COURSES

SWAGELOK TRAINING SERVICES

Other Swagelok Sponsored Training Courses Available

Swagelok and our partners have subject matter experts who can provide training on the following applications:

Orbital Welding

- Covering all aspects of automated GTAW basic to advanced
- 1-5 days (SLT-SWS-00)

Analyser Systems

- Process Analyser Sampling Systems (PASS)
- Analyser Sub-systems
- Problem solving & maintenance

Steam Systems

- **Ten Action Points (TAP)** – loss of steam is costly, learn from Swagelok's energy advisors how to improve the design and operation of your steam systems.

Materials Science

- Enlist the services of our materials engineers to help your team find solutions to material requirement challenges.

Swagelok University

- If you already operate a Learning Management System (LMS) then you already appreciate the benefits of on-line training.

Add Swagelok University to your LMS and gain access to our syllabus.

ECITB APPROVED TRAINING

SWAGelok TRAINING SERVICES

Who should attend?

ECITB (Engineering Construction Industry Training Board) installation training courses are ideally suited to personnel undertaking operations on small bore tubing assemblies and systems using two ferrule, mechanical grip and cone & threaded techniques across all industries.

ECITB Training Courses Available

- **SBT01** - Assemble and Install Small Bore Tubing with Twin Ferrule Mechanical Grip Fittings
- *2 days*
- **SBT02** - Assemble and Install Small Bore Tubing with Cone & Threaded Medium and High Pressure Fittings
- *1 day (for graduates of SBT01 only)*
- **SBT03** - Assemble and Install Small Bore Tubing with Cone & Threaded Medium and High Pressure Fittings
- *2 days*

ECITB Technical Tests Available

- **TSBT01** - Assemble and Install Small Bore Tubing Assemblies – Twin Ferrule
- **TSBT02** - Disassemble and reinstall Small Bore Tubing Assemblies – Twin Ferrule
- **TSBT03** - Assemble and Install Small Bore Tubing Assemblies – Cone & Threaded

APPROVED PROVIDER

BOOKING A COURSE

SWAGELOK TRAINING SERVICES

"A consequence of not picking up on faults during inspection and correcting them would have required a further minimum shutdown and start up delay of 4 hours, this being the best case and not the worst. With operational rates at \$22 million per day, a downtime saving of \$3.7 million was achieved."

Line Trainer – Major International Oil Company

Benefits of Training

Studies reveal that organisations who spend the most on training and education benefit from:

- Lower staff turnover
- Greater employee engagement and motivation
- Higher skilled workforce
- Reduced scrap
- Increased productivity
- Higher quality end product

Locations

United Kingdom

We offer training courses at our Kings Langley head office and at our East Anglia Training Academy in Norwich, we can also provide onsite training at your facility for an extra charge. For the latest available training dates, please go to london.swagelok.com/training

Central Asia and West Africa

We are able to provide on-site local training in these regions on request, for more information on this please contact your local sales and service provider or use the contact details below.

How to book a course:

If you would like to make a booking, find out when the next available course is, or arrange for a formal quotation, you can do this by:
