**To: All Customers**

**Re: Emergency Contact Information**

In the case of an emergency, we understand how important it is to have up-to-date contact information in order to communicate your needs to us.

We have four Louisiana locations to serve you. All four locations - Baton Rouge, New Orleans, Lake Charles and Lafayette - operate on the same computer system. After an emergency, if you are able to reach any one of our offices, we will be able to process your order from the nearest operational facility to you. Both the Baton Rouge office and the Lafayette office have emergency back-up power.

During normal working hours, try calling the office that normally handles your orders. If you cannot reach our office, try our emergency after hours 800 number, 1-800-293-4720.

The next best option is through our website; [louisiana.swagelok.com](http://louisiana.swagelok.com).

Another option is to call us directly. See the attached list of office telephone and fax numbers as well as associates cell numbers. If voice or web communications fail, try text messaging. Text messaging is sometimes available when voice communication is not.

Please feel free to share this information with anyone in your company who may need it.

Sincerely,

Jimmy Uhl  
President

## Emergency Contact Information Swagelok Louisiana
