

Swagelok Pittsburgh | Tri-State Area

Your Local Swagelok® Fluid-System Solutions Experts

Finest in the Field

...second in a series of on-the-job success stories that demonstrate how Swagelok Componentry and Strategic Support Services consistently save you substantial time, money, and worry in even your most challenging applications and operating environments

Your Challenge

A long-time major Swagelok customer routinely purchased only tube fittings, valves, tubing, and other products. But when the account's technical staff was overwhelmed with work and a new project called for an advanced solution to complete it on-plan and within budget, Swagelok fluid-system experts were called in.

Your Solution

Swagelok highly skilled fabrication specialists helped with design and build proficiencies for numerous complex assemblies, freeing up the customer's technicians to focus on higher-value jobs. Plus, the Swagelok panels delivered similar performance and superior efficiency – as fewer parts were required versus past internal efforts.

Your Healthier Bottom Line

Our customer realized significantly lower overall operational costs...AND gained the Swagelok Limited Lifetime Warranty on the full assemblies instead of just on the Swagelok components. In addition, the account reduced engineering, scrap, and rework expenses – and, most importantly, because of the crucial Swagelok boost in output, met its customer's delivery expectations.
