

If you require...

...a flexible connection between stationary and moving equipment

...a temporary connection to accommodate frequent disconnects

...isolation from high-vibration machinery...

Don't settle for the same old rigid solutions... without getting the whole (Hose) story:

SWAGELOK FLEXIBLE INDUSTRIAL HOSE

use means fewer connections and less leakage – resulting in a safer and far more efficient and effective fluid system. You'll also realize reduced overall inventory and labor costs, virtually no media entrapment or pressure drop, and, when necessary, easy cleaning and maintenance.

So why continue to employ materials that need to be installed straight, perpendicular, or at angles cut perfectly and to exact lengths for your application?

Because Swagelok Hose enables convenient bending and routing, you can design a system that eliminates many of your previously needed connectors. Plus, hose compensates for slight dimensional mismatches between connection points and can even fit within sterilization units.

Swagelok supplies four premium-quality hose core types:

All-Metal for high-temperature, medium-pressure, corrosive, vacuum, or general-purpose work

Fluoropolymer for inert and flexible applications

Thermoplastic for high-pressure, low-temperature jobs

Rubber for simple flexible applications

And choose from...

4 tagging options

Lanyard

Attaches with a stainless steel lanyard and aluminum clamp

Clamp

Attaches with two metal bands

Mat

Attaches via an adhesive

Perma

Attaches via an adhesive

6 cover options

Fire Jacket

Armor Guard

Spiral Guard

Spring Guard

Thermal Wrap

Thermosleeve

11 end connections

Tube Stub

Tube Fittings

VCR/VCO

Tube Butt Weld

Kwik Clamps

Cam and Groove

ISO/BSP

KF

Lap Joint Flange

SAE 37 JICo (Male and Female)

NPT (Male and Female)

ONE HOSE. MULTIPLE END CONNECTIONS. NUMEROUS APPLICATIONS!

Bonus Hose Efficiency Tip:

By stocking a few Swagelok Tube Stub Adapters and some union tees and elbows, you can easily switch out end connections to adapt the same hose for multiple applications. Our adapters eliminate difficult alignment problems, too!

WE DELIVER DIFFERENCE-MAKING SOLUTIONS:

Products | Strategic Support Services | Application Know-How

The Brand. The Inventory. The Expertise.

WE'RE YOUR SWAGELOK FLUID-SYSTEM SOLUTIONS PROVIDER

Industry-Best Componentry

Masterful Custom Fabrication

Expert Safety Training

Extensive Energy Evaluations

Unparalleled Application Knowledge

Comprehensive Hose Advisories

Proven Inventory Management Support

Genuine Swagelok Tool Rentals

WE CAN HELP YOU SAVE TIME, MONEY, AND WORRY:
