

Something for Everyone

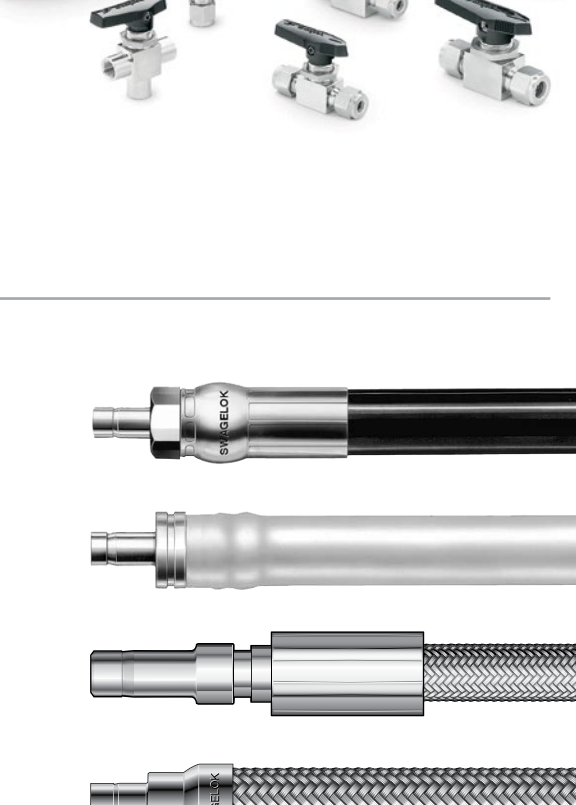

Swagelok premium-quality, leak-tight Components deliver ultra-reliable performance in even the most challenging industrial applications and operating conditions.

Here are **just a few** proven and trusted examples:

CLEAN ENERGY

FITTINGS

We offer: **Tube Fittings** that deliver ultimate gas-tight seals and are highly resistant to vibration fatigue; **Assembly-by-Torque Fittings** that install quickly and easily; and **FK Fittings** that are renowned for their outstanding tube grip and leak avoidance.

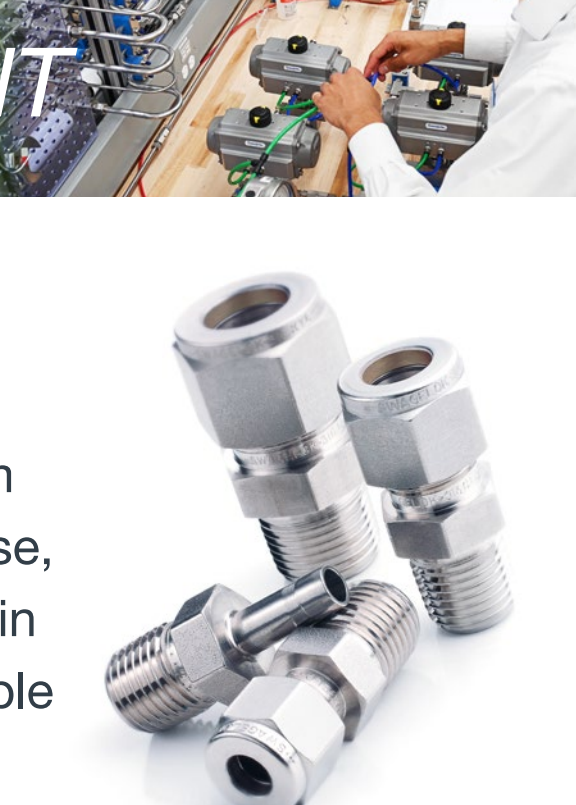

VALVES

Our numerous styles include: **Ball Valves** for on-vehicle dispenser usage; **Check Valves** that prevent backflow; **Excess Flow Valves** that dependably reduce flow in case of a line rupture; **Relief Valves** for your most challenging purge and bleed applications; and **Instrument Manifolds** that minimize potential leak points at refueling stations.

HOSE

For hydrogen and natural gas jobs, Swagelok **Metal Core, PTFE Core, PFA Core, Rubber Core, and Thermoplastic Core** options provide unparalleled performance and cost-effectiveness.

REGULATORS

Whether you're performing on-vehicle or refueling infrastructure work, our **Pressure-Reducing and Back-Pressure Regulators** give you world-class productivity and efficiency to withstand your most extreme operating conditions.

RESEARCH & DEVELOPMENT

FITTINGS

We offer: **VCR® Metal Gasket Face Seal Fittings** that ensure leak-tight service from vacuum to positive pressure; and, of course, Swagelok Tube, Pipe, and Weld Fittings – in 1/4", 1/8", and 1/16" sizes – for ultra-reliable results, no matter what your application.

QUICK-CONNECTS

Virtually eliminate spillage and air inclusion by installing our vast variety of **Full-Flow, Instrumentation, Miniature, and PTFE-Sealed** swift-and-simple-to-install styles.

REGULATORS

You'll maintain system pressures and minimize droop over a wide range of pressures and flows with our **Pressure-Reducing, Back-Pressure, and Specialty** designs. Spring-loaded or dome-loaded.

GAUGES

Low pressure to severe service, Swagelok measurement devices – **Gauges, Pressure Transducers, Flow Sensors, Flowmeters, and Thermometers** – provide ultimate accuracy to keep your workers, systems, and facilities safe.

INDUSTRIAL MACHINERY & EQUIPMENT

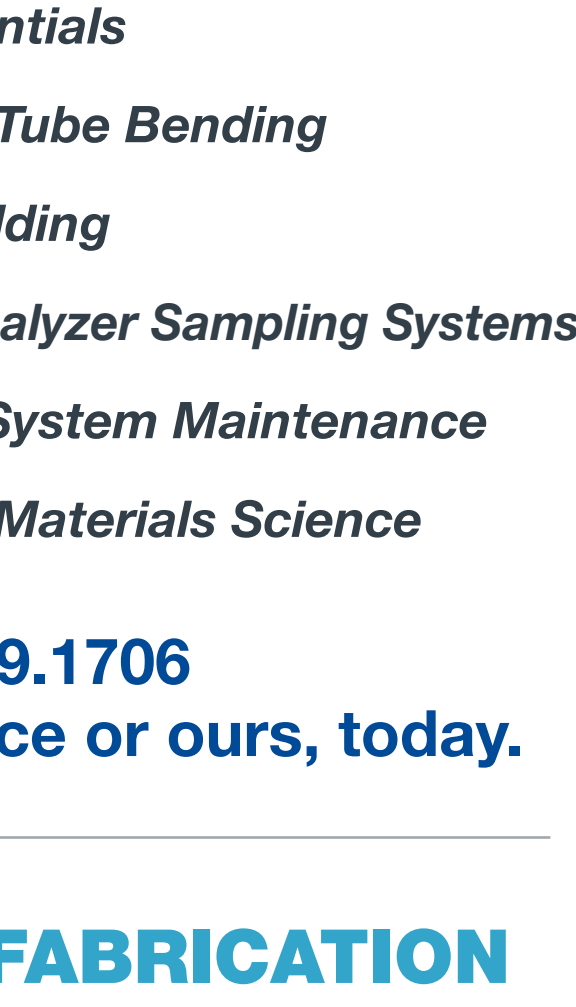

FITTINGS

We offer: **Tube Fittings** that secure the connections that stand up to the rigors of high-risk, high-vibration environments; and proven and trusted Pipe, Weld, PFA, and Vacuum Fittings that install, disassemble, and reassemble easily.

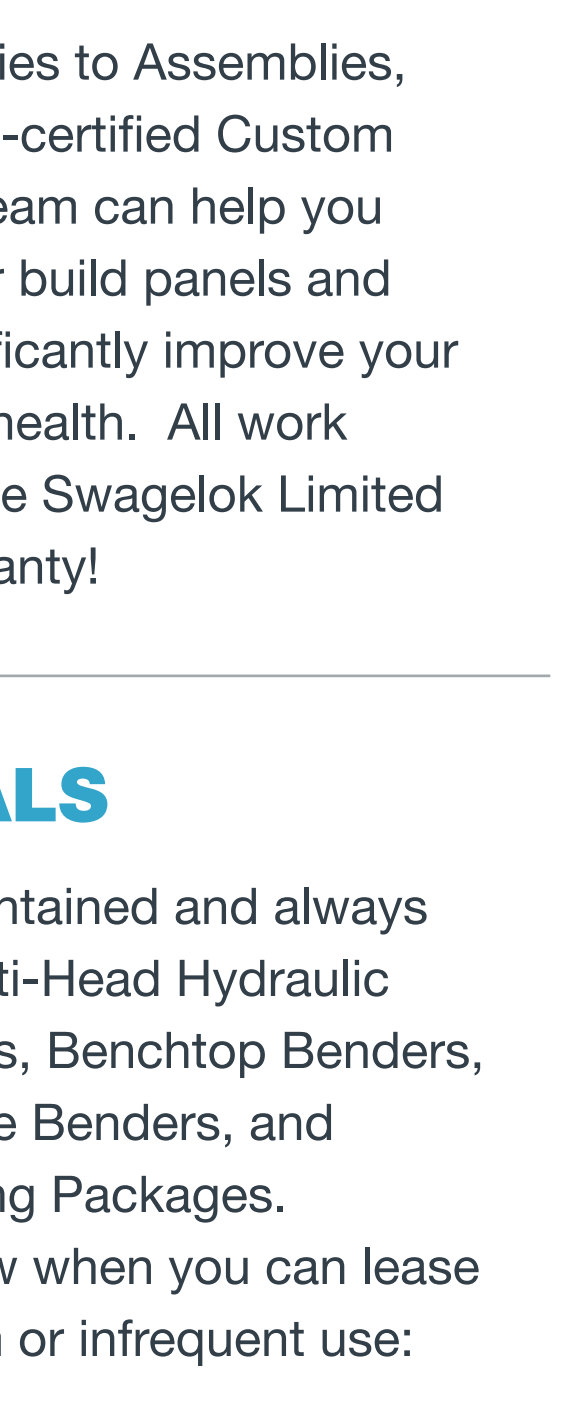

VALVES

Substantially lower maintenance costs with Swagelok one-piece instrumentation **40-Series** and three-piece process/instrumentation **60-Series Ball Valves**; GB Valves for high-flow projects; and our multiple and dependable Integral-Bonnet Needle, Check, Metering, Relief, Bellows-Sealed, and Plug Valves.

HOSE

No matter what your pressure and/or temperature requirements, we have components that never fail to exceed expectations: **Rubber, All-Metal, Thermoplastic, PTFE, and PFA Core Hose; plus, PFA and Vinyl Flexible Tubing** when transparency is needed to monitor system flow. And, if you want your Hose crimped, assembled, audited, or managed, we can expertly assist you with those functions as well.

TUBING AND ACCESSORIES

Our tubing has the unmatched material properties necessary for your machines' maximum output. Fully depend on leak-tight performance regardless of which type you employ: Stainless Steel, 304/304L Welded, Cone and Thread, Medium/High Pressure, Jacketed/Insulated, Electric/Steam-Traced, and High and Ultrahigh-Purity. And, we can help you cut, debur, bend, and support any tubing!

PLUS,
for all fluid-handling-related markets,
WE OFFER:

COMPREHENSIVE SAFETY TRAINING

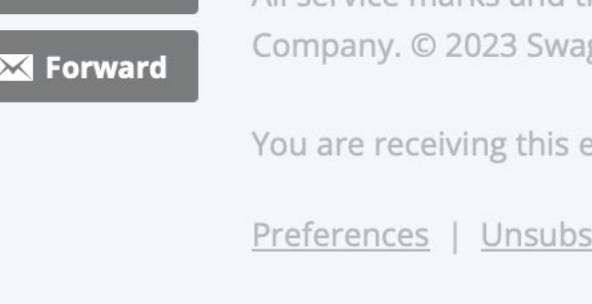

- Tube Fitting Installation & Tube Bending Safety Essentials
- Tube Fitting Inspection Safety Essentials
- Hose Essentials
- Valve Essentials

- Advanced Tube Bending
- Orbital Welding
- Process Analyzer Sampling Systems
- Sampling System Maintenance
- Advanced Materials Science

Call or Text 412.439.1706 to set up your event, your place or ours, today.

MASTERFUL CUSTOM FABRICATION

Sub-Assemblies to Assemblies, our Swagelok-certified Custom Fabrication Team can help you design and/or build panels and skids to significantly improve your Bottom-Line health. All work covered by the Swagelok Limited Lifetime Warranty!

TOOL RENTALS

Pristinely maintained and always in stock: Multi-Head Hydraulic Swaging Units, Benchtop Benders, Standing Tube Benders, and Orbital Welding Packages. Don't buy new when you can lease for short-term or infrequent use:

WE DELIVER DIFFERENCE-MAKING SOLUTIONS:

Products | Strategic Support Services | Application Know-How

The Brand. The Inventory. The Expertise.

WE'RE YOUR SWAGELOK FLUID-SYSTEM SOLUTIONS PROVIDER

Industry-Best Componentry | Masterful Custom Fabrication | Expert Safety Training | Extensive Energy Evaluations | Unparalleled Application Knowledge | Comprehensive Hose Advisories | Proven Inventory Management Support | Genuine Swagelok Tool Rentals

WE CAN HELP YOU SAVE TIME, MONEY, AND WORRY:
