

**Back to
(Safety & Productivity)
School**

It's that time of year...

...to acquire or sharpen the fluid-system mechanical skills and technical knowledge necessary to keep you safer and performing at optimal on-the-job levels...

Whether you're a new or an experienced Maintenance Technician or Design Engineer, our renowned class titles, available at your facility or our leading-edge Pittsburgh Training Center, deliver the trusted and proven know-how to master Best Practices for:

- ◆ Tube Fitting Installation
- ◆ Tube Fitting Inspection
- ◆ Tube Bending Basics
- ◆ Advanced Tube Bending
- ◆ Hose Essentials
- ◆ Valve Essentials

WHY Swagelok Training?

<p>Personal, customizable, hands-on instruction</p>	<p>Money-back guarantee</p>	<p>Genuine Swagelok Certificates of Completion</p>
--	------------------------------------	---

<p>We supply ALL class materials – students just need to show up where/when</p>	<p>YOU WILL WALK AWAY FULLY AND CONFIDENTLY KNOWING how to build a fluid system – that's our promise!</p>
--	--

People are Talking about Us.

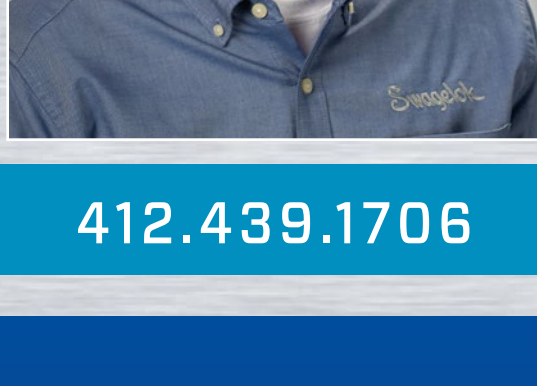

Recent **Swagelok Pittsburgh | Tri-State Area** Safety Training class graduates have had plenty to say:

<p>“Your instructor held my interest the entire day.”</p>	<p>“The hands-on tube-bending practice — plus the instructor’s willingness to thoroughly answer our real-world application questions — was worth the price alone.”</p>	<p>“I took away so much from the Essentials class that I plan to enroll in your next Advanced Bending multi-day course.”</p>
<p>“The general course information combined with the hands-on mechanical skills refresher was powerful.”</p>	<p>“What I learned about making better and neater parallel tubing runs was exceptionally helpful.”</p>	<p>“I loved your hands-on teaching approach!”</p>
<p>“I learned different bending techniques that will be extremely valuable in my job.”</p>
