

Whether you're a new hire or have been on the job a while, now is an ideal time to learn the **latest** methods to safely and properly assemble a fluid system.

PRESENTING THE GLOBALLY RENOWNED SWAGELOK TUBE FITTING INSTALLATION & TUBE BENDING SAFETY ESSENTIALS COURSE!

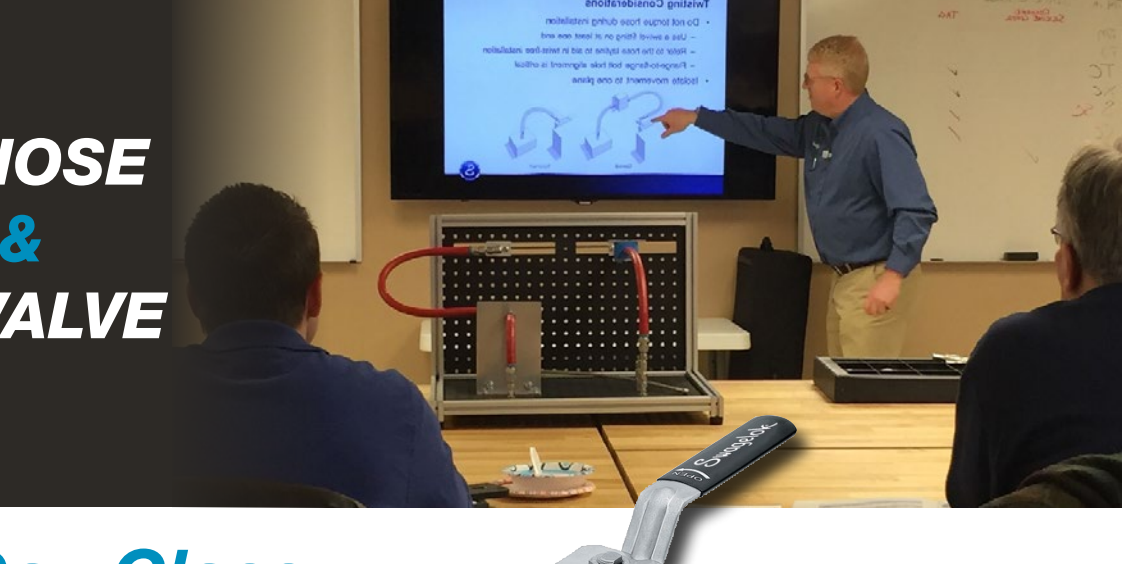

In just one day...

...at your facility or at our leading-edge Pittsburgh Training Center, in a highly hands-on learning environment, you will graduate with the necessary skills to virtually eliminate line leakage, no matter what your market or severity of applications.

We provide all training materials: manuals, formulas, gap gauges, tube benders, tube fittings, tube cutters... All you need to do is to show up when/where your session will be held. You will spend your valuable time pulling up fittings, cutting tubing of various compositions and diameters, as you build an actual fluid system with a minimum number of connections.

WE ALSO OFFER SWAGELOK HOSE ESSENTIALS & SWAGELOK VALVE ESSENTIALS

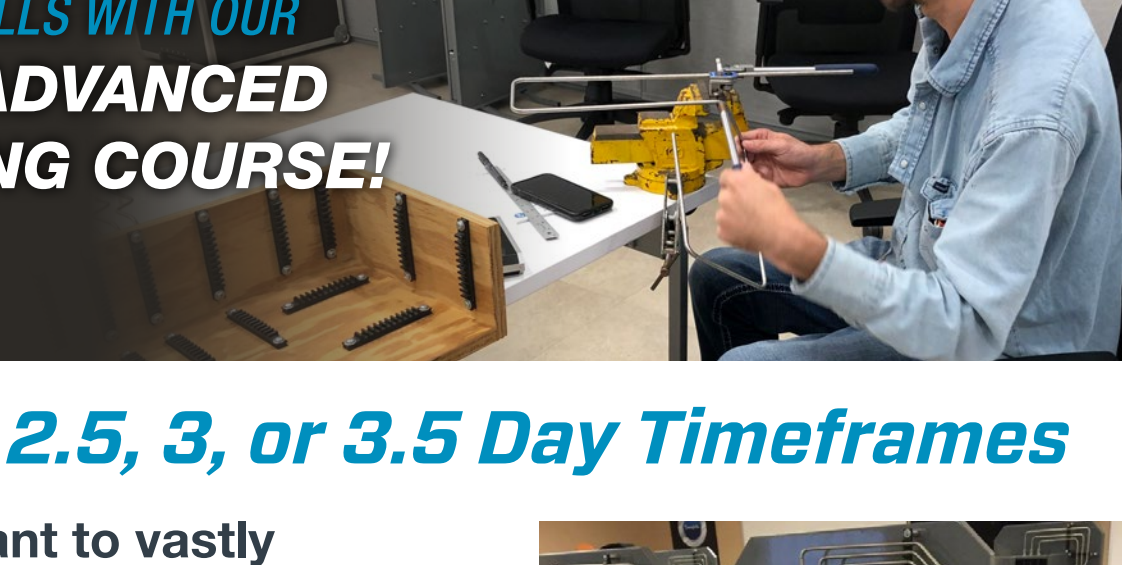

Each Half-Day Class

will help you make the absolute best product choices per application – with plenty of maintenance and troubleshooting instruction included as well.

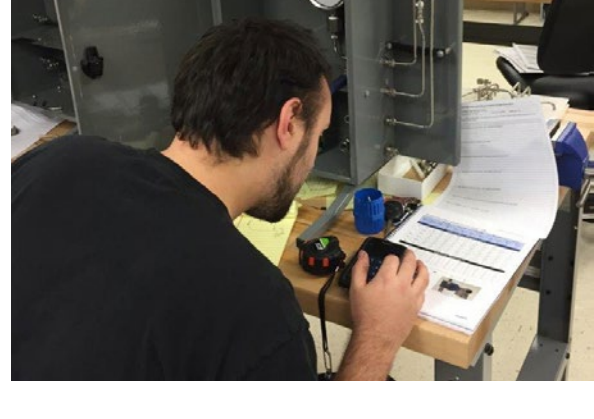

ENHANCE YOUR SKILLS WITH OUR SWAGELOK ADVANCED TUBE BENDING COURSE!

Available in 2.5, 3, or 3.5 Day Timeframes

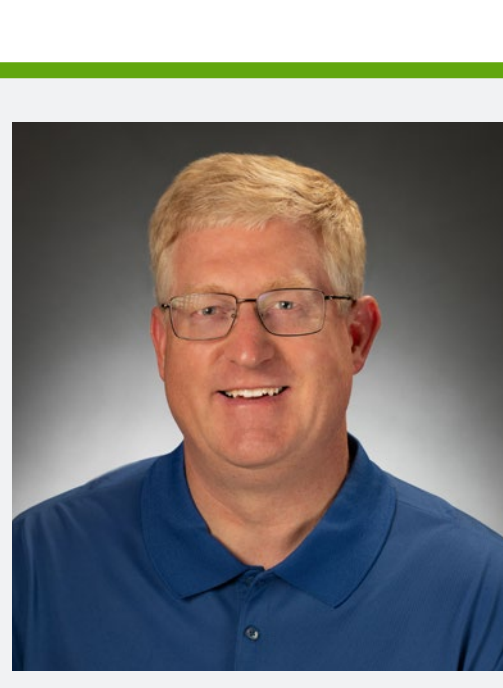

For those who want to vastly expand their bending capabilities, we suggest Swagelok Advanced Tube Bending – available in 2.5, 3, or 3.5-day timeframes... your choice...depending on just how much practice you'd like to master even the most complex offset and segmented tube bends!

Meet Your Teacher:

MIKE GAGEL,

our Strategic Services Specialist, a certified tube-bending expert, and a major contributor for most of the Swagelok customer training programs used worldwide.

"Your instructor held my interest the entire day"

"The hands-on tube-bending practice – plus the instructor's willingness to thoroughly answer our real-world application questions – was worth the price alone"

"Now I have the confidence to do any bending job given to me in our shop"

Don't delay – enroll today...and quickly and dramatically improve your overall system safety, performance, and profitability:
