

# Minimize Leaks. Maximize Efficiency.

## Swagelok® Compressed Gas Leak Detection Services

Swagelok's expertise lets you get to the source of the problem -- every time.

Compressed Gas Leak Detection Service provides:

-  Source and cost of leaks through the use of ultrasonic leak detectors and Snoop.
-  A detailed report including leak location and size allowing personnel to set a maintenance schedule.
-  A prioritized list of recommendations that help you eliminate leakage and conserve valuable resources.

Contact us today to schedule your  
Compressed Gas Leak Detection consultation.

Swagelok®

## How much did your facility spend on electricity last year?

We recently completed an evaluation of a customer's compressed gas system.  
Our findings are as follows:

# of leaks  
identified

**278**

Cost of leaks

**\$66,627.90**

*Customer's compressed gas system is online approximately 8,760 hrs/year, and the facility pays \$0.10/kWh for electricity.*

## A SINGLE LEAK CAN COST \$240/YEAR - HOW MANY LEAKS ARE IN YOUR FACILITY?

A constantly running compressor is costing you more money than you probably realize. If your compressors are constantly cycling on and off it's likely that you have leaks in your system.
