

The Swagelok logo is written in a stylized, cursive font. It is positioned in the upper left quadrant of the page, with a vertical line to its left and a horizontal line below it, forming an L-shape.

Thread Button Die

The Swagelok thread button die repairs minor damage to Swagelok tube fitting threads. It will not repair threads that are extensively damaged or galled.

Prior to shipment, each tool is inspected and properly adjusted. No additional adjustment is necessary. After use, should the die require any further adjustment, please contact your local Swagelok representative for assistance.
